

KEGG pathway-map association · Synechococcus

25 organisms × 78 KEGG pathways · UPGMA (jaccard)

Present pathway coloured by KEGG functional category · light grey = absent

- Carbohydrate metabolism
- Amino acid metabolism
- Lipid metabolism
- Metabolism of terpenoids and polyketides
- Other
- Energy metabolism
- Metabolism of cofactors and vitamins
- Glycan biosynthesis and metabolism
- Biosynthesis of other secondary metabolites
- absent
